

## CCC Video-2(Steps)

Description: this document contains steps which we have demonstrated in our [CCC Practical -2 Video](#) on how to uninstall a program/software in your computer

### Steps

- (1) Open My Computer(Double click on 'My Computer' icon on your desktop screen or From your keyboard click on Windows +E. This will open my computer
- (2) Now on the windows that opens Type “Control Panel”, which will open Control panel. Alternatively you may just Click windows +R. Which will open Run command menu and here write “Control panel” to open control panel.
- (3) On control panel Select Uninstall a program option under Programs.
- (4) This will open a list of program.
- (5) here select a program which you want to uninstall. And Follow the steps in popup window.
- (6) Please note that for some programs you may have to restart computer after uninstalling program.
